

● AGRI LABELS AND TAGS

PRODUCT INFORMATION

The Law requires that product information is displayed on a packed product. When the packaging itself is not printed a label carrying the obligatory information is one solution. But not all products are easy to label, which is why Van der Windt's range includes many different labelling products. From self-adhesive labels to the so-called ElastiTags®. Van der Windt has a tailor-made solution for every packed product and even for unpacked products, such as bananas and spring onions. Because Van der Windt's labels are of a consistently high quality they can be processed by labelling machines without any problems.

DELIVERY INFORMATION

Van der Windt's range includes the following products:

- **Self-adhesive labels:**
Labels with removable or permanent glue, printed on one or both sides, various qualities for thermo printing, bio-degradable.
- **Kwik Lok®:**
Bag closures that can have a label attached, made of cardboard or Teslin material, for both manual and machine processing.
- **"Click-on" labels:**
Hanging labels for, for example, tomatoes on the vine and peppers.
- **Luggage tags:**
also suitable for labelling trees and shrubs.
- **ElastiTags®:**
Labels on an elastic band with which products can be bundled. Also suitable for attaching samples of complimentary products.
- **Tapes:**
Film tapes in PP, PE or PVC for machine processing in combination with shrink or stretch film.
- **Crate and insert cards:**
For labelling crates and boxes. Special shapes, such as corner cards, are available on request.
