

● INDUSTRY MEATPAK PAPER

PRODUCT INFORMATION

Every meat processor will make sure its meat is perfectly packed and the quality is guaranteed. Van der Windt offers meat processors and packers a number of concepts, such as the Meatpak concept, that provide a solution for packaging problems. Meatpak is an extremely strong, moisture proof paper specially formulated to prevent the discolouration of meat and meat products.

Meatpak also ensures the minimum absorption of meat juices so that the meat remains moist. Fresh meat discolours quickly, Meatpak paper prevents this discolouration.

Because no discoloured portions of meat have to be cut away Meatpak prevents losses when slicing and that is pure profit.

DELIVERY INFORMATION

Van der Windt supplies peach coloured Meatpak paper in 400 x 600 mm sheets from stock.

Other colours and sizes are available on request.
